SUMMARY

Experienced Full Stack Developer with a strong background in both front-end and back-end development. Expert in managing the full software lifecycle, from concept to deployment, with a focus on high-quality, scalable solutions. Proven ability to collaborate effectively in remote settings and mentor junior developers. Skilled in modern development tools and technologies, with a commitment to continuous learning and data-driven decision-making. Fluent in English and Spanish.

PROFESSIONAL SKILLS

- Data Management
- DevOps & Continuous Integration
- Gathering & Analysis
- Program debugging
- Template design
- Data-driven Decision Making
- Business Acumen
- Project Management
- Communication
- User Experience (UX)
- Computer Literacy
-
- Data Analysis & Interpretation
- Problem-Solving & Troubleshooting
- Analytical skills
- User Experience Design (UED)
- Predictive Analytics
-

TECHNICAL SKILLS

Web pages | Git BASH | GitHub | SQL | React.js | Java | Webpack | Front end development | Back end development | JUnit | NoSQL | CSS Flexbox | Ruby on Rails | ChatGPT | Spring Boot | Generative AI | Tailwind | Python | Programming | JavaScript | Vue.js | Application Development | HTML | WebDriver | Tailwind CSS | Express.js | JSON | Npm | Jest | API management | Web design | Bootstrap | Node.js | Cascading Style Sheets (CSS) | Angular

WORK EXPERIENCE

FULL STACK DEVELOPER – CONTRACTOR | 09/2024 – Current

EAST ROCK SOFTWARE | Remote (USA)

- Working as an independent contractor for East Rock Software, collaborating remotely with a US-based team on full-stack development projects.
- Currently contributing to OTTO (Open to the Offer), a startup project, handling both front-end and back-end development tasks throughout the full software lifecycle.
- Delivering scalable, production-ready features using modern JavaScript frameworks and back-end technologies, ensuring code quality through testing and peer code reviews.
- Maintaining clear communication and agile workflows with cross-functional remote teams across different time zones.

FULL STACK DEVELOPER | 10/2023 – Current

SELF-EMPLOYED

- Actively collaborating in programming environments, successfully completing projects through pair programming and remote teamwork. Partnering with software developers globally to deliver high-quality software solutions.
- Demonstrating and enhancing remote collaboration skills by efficiently communicating and coordinating with clients and team members across different time zones. Utilizing tools like Git, Slack, and Zoom to maintain seamless project management and delivery.
- Currently developing and delivering over 60 projects independently, including Metricks_Tracker, Car Rental, and Markdown_Previewer. Managing all stages of the development lifecycle from initial concept to deployment.
- Continuously gaining proficiency in full-stack project development, handling both front-end and back-end tasks including user interfaces, database management, server-side logic, and API integration.
- Carefully managing and selecting appropriate tools and technologies tailored to each project's requirements. Working with JavaScript (React, Node.js), Python (Django, Flask), and databases like MySQL, PostgreSQL, and MongoDB.
- Ensuring proactive client communication, offering technical support, and post-launch maintenance. Committed to continuous learning and adopting new technologies for improved development efficiency.

FULL STACK WEB DEVELOPER & MENTOR | 04/2023 – 10/2023

HIGHLIGHTED PERSONAL PROJECTS

- Providing guidance and mentorship to junior developers, sharing best practices in full-stack development, and offering support through code reviews and pair programming sessions.
- Creating applications such as Leaderboard, designed to display player scores and enable users to submit their own scores. Employing modern JavaScript frameworks and testing methodologies (ECMAScript6, Jest).
- Independently and through pair programming, developing 60+ full-stack projects, ranging from mobile apps to interactive web applications, ensuring robust functionality and seamless user experiences.
- Leading workshops and training sessions on modern web development tools and practices, helping team members stay current with technologies like Ruby on Rails, API integration, and JavaScript frameworks.
- Developing and implementing testing strategies for all projects, ensuring thorough testing using integration and unit tests.
- Building and maintaining applications like Api dishes, which display menus using external APIs. Utilizing tools like Webpack and Jest to manage dependencies and ensure code quality.

MENTOR (VOLUNTEER) | 04/2023 – Current

MICROVERSE

- Providing continuous support and guidance through Slack and Zoom weekly mentoring sessions, ensuring each mentee receives personalized attention.
- Helping mentees navigate the complexities of web development by offering insights, best practices, and practical advice on coding challenges and remote collaboration.
- Playing a key role in maintaining sustained engagement of at least 4 mentees by delivering consistent motivational support.
- Assisting mentees in building their professional profiles, preparing for interviews, and navigating the job search process.

TEACHER | 03/2001 – 03/2021

ALIRO LAMAS SCHOOL | Atacama, Chile

- Mentored and guided over 300 students in the research, design, and programming of Lego Robots for the First Lego League.
- Implemented Scratch (MIT) programming language into regular curriculum subjects, enhancing students' computational thinking and creativity.
- Taught algorithms and programming concepts to over 2000 students, integrating hands-on learning experiences to build foundational skills in technology and engineering.
- Worked closely with colleagues to share best practices and strategies for integrating technology into the curriculum.

JOURNALIST | 12/1998 – 02/2001

MUNICIPALITY OF DIEGO DE ALMAGRO | Atacama, Chile

- Assisted in developing and implementing public relations strategies to promote community engagement and enhance the municipality's image.
- Supervised community communications producing over 50 press releases and community updates annually, increasing community event participation by 40%.
- Managed emergency communications for the municipal committee, enhancing response coordination for over 20 annual emergencies.

EDUCATIONAL BACKGROUND

DESAFÍO LATAM

Full Stack JavaScript Trainee, 05/2022

EF ENGLISHTOWN

Advanced English, 03/2015

UNIVERSITY PEDRO DE VALDIVIA – Santiago, Chile

Educational Science, 03/2014

METROPOLITAN TECHNOLOGIC UNIVERSITY – Santiago, Chile | Master's Degree

Educational Informatics, 03/2011

NORTHERN CATHOLIC UNIVERSITY – Antofagasta, Chile | Communication Sciences

Journalism, 12/1998
